Best thing ever! XD

Just joking haha

It is just ordinary nokia snake game.

If you would like to gather a lot of achievements this is just game for you.

That is the only valuable thing about this game.. the game likes to make♥♥♥♥♥♥♥♥up all the time but still fun.. A decent puzzle/adventure game which is pretty cute. But (always a but) it's way too short and the story is fairly non-existent.

Just as the puzzles start to ramp up their already fairly easy difficulty the game ends. Still, worth a couple of bucks. It's already \$5 so expect to see it for half that or less come the big sale time.. I love the mechanic of SiNKR and the peaceful time you can have in the game. The graphics is not really AAA, but hey - it's indie! A solid piece for every puzzle lover!. I'm going to start by saying that I very strongly recommend this game for people who want practice on parking their trucks in Euro Truck Simulator. This game is quite literally a truck-parking game where you're to move your truck and park it without hitting anything within a short time. You get graded on each level given how fast you can park your truck successfully; Gold if you can do it perfectly and fast enough to make a TAS-bot look impressed, Silver if you're a very experienced truck driver, and Bronze if you managed to do it safely without hitting anything. The instant you hit an obstacle, you won't get a medal for completion, but you will still get a mark saying you completed the level.

One thing that stands out to me in this game is the replay feature. The game will save a replay of your successful times so you can watch them later. I utilized this to make [this 1 minute video](#), which I feel is good for demonstrating how the game plays.

All in all, I would say that this game is for people who either want to better their truck parking skills, trailer-backing skills, want to play Euro Truck Simulator 2 without open roads, or a combination thereof. I personally enjoy it, as it focuses more on the technical aspects of parking your truck where Euro Truck Simulator focuses more on the long open-road driving.. If you like Doom/Doom 2, this game is absolutely worth \$5 to you. No jumping, no plot, lots of bad guys. The graphics and music do a good job setting the tone. The enemies are challenging and numerous. The level design is fairly basic but secrets help add variety. Very barebones menu and options - you can't rebind controls, so if you don't like WASD you're out of luck.

Give it a try!. Can't believe this game has 50%!!! It really is a great game. I only encountered 1 bug...which is of course the one right before the second to last battle of the entire game. Which did suck. But as you can see, I got 102 hours out of one play through. Yeah, it sucks I couldn't finish it, but I still recommend the hell out of this game.

8/10 Would c2d again

I have to tell you this is one of the greatest games I have Ever played the story and characters are just amazing this I would I put this probably no definitely on the same level as Undertale its just amazing I defiantly recommend anyone who reads this review to buy the game. and if the developer reads this (very small chance) please continue what you are doing cause you are doing all the right things.. Brutally Difficult but fun, a great Bullet-Hell game. Awful. Slow, dumb, clunky.. I wanted to like this game but it is terrible. A polished turd.

An otherwise solid game set back by a completely broken game mechanic. It's a nice idea but just doesn't work. This should have been canned when the first playable prototype was made. I can only imagine that the team didn't realise this until there was too much invested in it.. This game was enjoyable, it's short but I enjoyed replaying to figure out how to not die and save the town. It would have been easier if you could save the game during the choice screen and I wish there was an easier way to turn the skip function on and off. The music, voice acting, art, grammar, and story are all good. This game didn't knock my socks off, but it is definitely worth a dollar or less. Recommended.
